Welcome of Chamber for Service Industry

The services sector of India remains the engine of growth for India's economy pre Pandemic, during pandemic and post pandemic as well. With the fastest growing (9.2%) service sector globally, the sector accounts for 66% share in India's GDP and generates about 28% of the total employment in India (2023). Indian government has identified 12 Champion Service Sectors for promoting their development and realising their potential. A dedicated fund of rupees 5000 crore has been again approved to support the initiative for Sectoral Action Plan of the champion sectors (introduced in 2018 by Govt. of India) . Services exports set a new record of \$254.53 billion in 2021-22. This makes us optimistic that exports services alone will rise to \$1 trillion by 2030 as targeted by Govt. of India
