EMPOWERING SC TEACHERS, EDUCATORS, TRAINERS AND COUNCELLORS

India is now officially the world's fastest growing economy. Economic growth is incomplete and unsustainable if it is not rooted in a strong, world-class educational infrastructure. Education is the most important lever for social, economic and political transformation. Accordingly, recognizing the importance of education in national development, the Twelfth Five Year Plan places an unprecedented focus on the expansion of education, on significantly improving the quality of education and on ensuring that educational opportunities are available to all segments of the society. To meet these challenges, the Ministry's endeavour has been to achieve 'Education for All' with an inclusive approach.

As educational development is a stepping-stone to economic and social development, and is the most effective instrument for empowering the adi dravida or Dalits (Scheduled Caste). The Scheduled Castes about 16.6 percent of India's population (according to the 2011 census), which is nearly 20.14 crore against 16.66 crore in 2001. The Constitution (Scheduled Castes) Order, 1950 lists 1,108 castes across 29 states in its First Schedule*. The Scheduled Caste population showed a decadal growth of 20.8%, whereas India's population grew 17.7% during the same period.

There are around 9.79 crore women among the total SC population. Nagaland, Lakshwadeep and Andaman and Nicobar islands have no scheduled castes among their population. Though, Four states account for nearly half of the country's Scheduled Caste population. Uttar Pradesh stands first with 20.5% of the total scheduled caste (SC) population, followed by West Bengal with 10.7%, Bihar with 8.2% and Tamil Nadu with 7.2 % come third and fourth, Punjab has the largest share of Scheduled Castes in its population at 31.9%. Himachal Pradesh and West Bengal follow Punjab with 25.2% and 23.5%. In view of various studies, India will have more than 700 million Indians, estimated to be of a working age by 2022 and to upskill 500 million people by this time, requires an estimated 70,000 highly skilled Trainers now and 20,000 additional Trainers each year. This creates a need of sufficient supply of highly skilled Counselors, Educators and Trainers to deliver this.

TEACHERS EMPOWERMENT PROGRAM, SIKKIM

ICSI conducts 5 days Empowerment Training Program for Teachers, Trainers and Counsellors duly approved by NCERT, Ministry of HRD, Govt. of India

- **Understanding the learner**
- **Teacher as a Counsellor**
- **ICT In Teaching and learning**
- **Development of Life Management Skills**
- **Assessment - Evaluation and Learning outcomes**

OUR EDUCATION AND SC YOUTH

Education forms an important component in the overall development of individuals, enabling them to greater awareness, better comprehension of their social, political and cultural environment and also facilitating in the improvement of their socio-economic conditions. Therefore education is the most effective instrument for empowering the Scheduled Castes Youth. Though India's education system over the past few decades has made significant progress, largest proportion of centrally sponsored programmes for Scheduled Castes development are related to the single sector of education. Also, Scheduled Castes People in India have immeasurable experience and extensive traditional knowledge on many aspects including arts, medicine, dance, paintings, nature and on sustainable resource management. Best opportunities should be created to accelerate their skills and capacities for the overall growth and development of the nation.

Globalisation and market forces are creating employment opportunities across countries on a large scale never seen before. As India moves progressively towards becoming a 'Knowledge Economy', there is a need of the hour to focus on development of skills in relevance with the emerging economic environment. Realising the fact, Union Planning Commission of India stated that **"India would not be able to achieve 9% economic growth without imparting skill training to its youth"**. Also amongst others, the most prominent of all the change agents is the target set by Hon'ble Prime Minister to impart **skill training to 400 million people by the year 2022**.

Literacy Rate, 2011

	Total	Male	Female
Total Population	72.99%	80.89%	64.64%
Scheduled Caste Population	66.10 %	75.20 %	56.50 %
